Refrigerator-Freezers*

# Plan Your Carefree Kitchen with **THERMADOR** Masterpiece Bilt-in Electric Cooking Tops

Today, it's *electric* cooking—safe, clean, cool *auto-matic* cooking—with Thermador, the *original* and the *finest* Bilt-in Electric Range setting the pattern.

Thermador Bilt-in Electric Ovens and Cooking Tops can be placed anywhere you desire . . . at any height . . . for utmost ease of operation, greatest step-saving convenience, and smoothest work flow. All come in lustrous finishes that wipe sparkling clean with a damp cloth. Here are Thermador's advanced cooking tops that bring new ease to your top-of-range cooking . . . no others offer such variety for convenience, versatility of operation, and wide selection of models and sizes.

Thermador's gleaming beauty blends handsomely with any cabinet or counter construction, whether wood, metal, tile, brick or synthetic material.

Simplicity of design resulting in easier upkeep and added beauty distinguishes Thermador, makes it a favorite with architects and designers as well as homemakers . . . builders prefer the ease of installation, too!

#### LEGEND:

- "A" with Therma-Matic and Speed-Matic elements
- "B" indicates Duo-Cook Convertible Cooker
- "S" Lifetime Stainless Steel
- "P" Exciting Decorator Colors

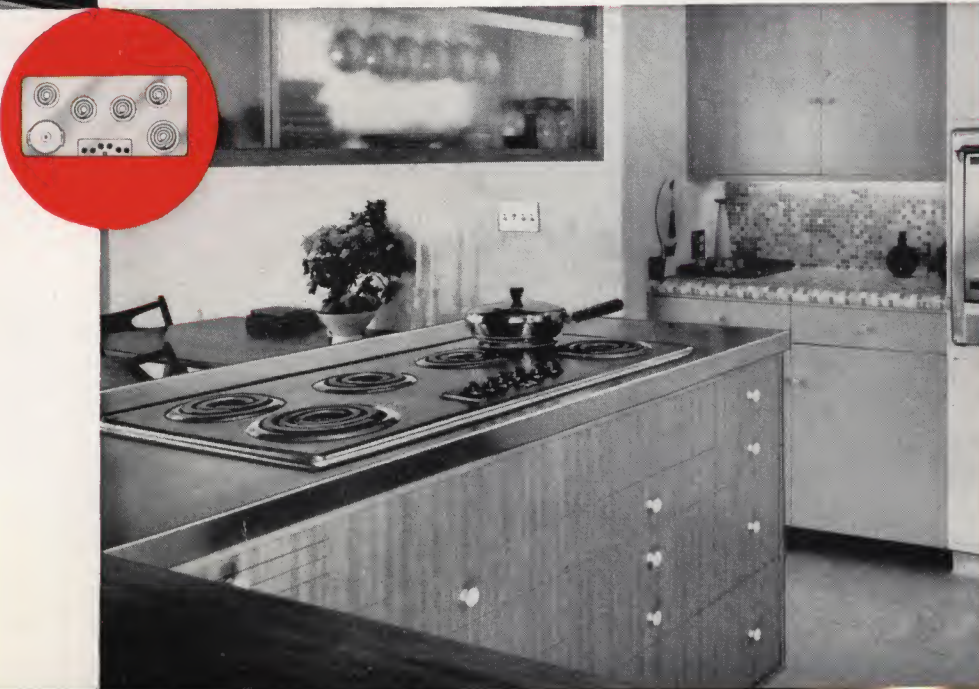

**ONLY THERMADOR** offers so many different cooking tops... more than any other! A source of inspiration is your own preferred selection from 23 Thermador Bilt-in Electric Cooking Tops; 15 in lifetime, easy to clean stainless steel with smart Midnight Blue controls... or from 8 porcelain enamel cooking tops in exciting decorator colors: Desert Pink, Turquoise, Sugar White, Daffodil Yellow, and the popular Canyon Copper.

*Greatest selection of cooking tops anywhere!* Available with all surface elements and Duo-Cook controlled by 7-heat switches—more than the usual 5. Some have the giant middle griddle with the fabulous Vari-Speed control; some have the double duty Duo-Cook that converts to an extra surface element. Others feature the Therma-Matic and Speed-Matic surface elements. All are equipped with removable drip pan and tilt-up elements for ease of cleaning. Signal light glows when any element is on.

#### DUO-COOK CONVERTIBLE

**COOKER** Versatile Duo-Cook enables you to make French fries, stews, soups and many other dishes in the spacious 6-qt. cooker pot. In addition to the convenience of a deep well cooker, the Duo-Cook can be readily converted to an extra surface element by removing cooker and lifting unit. Gives added utility to your Thermador cooking top.

*Sensational New*

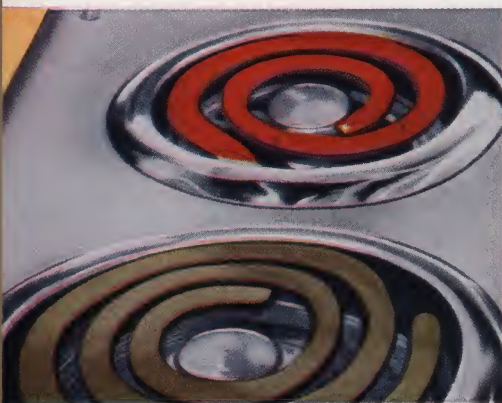

## AUTOMATIC SURFACE ELEMENTS

*Add Convenience to Masterpiece Cooking Tops*

**SPEED-MATIC SURFACE ELEMENT:** Fast starts plus *Vari-Speed* control are yours with the Thermador *Speed-Matic* element. The *Speed-Matic* surface element speeds to full red-hot in 26 seconds—or to any lower heat setting in even *less* time. The selected heat is then automatically maintained. Any required heat from simmer to sizzle is yours with the infinite *Vari-Speed* control.

**THERMA-MATIC SURFACE ELEMENT:** True Thermostatic control is yours with Thermador's new *Therma-Matic* surface element. Now, you can prepare foods at perfect cooking heat without burning or scorching. The temperature-sensitive *Therma-Matic* surface element assures constant, reliable heat control. Once the cooking heat is selected on the conveniently marked dial, the *Therma-Matic* maintains uniform heat, acts as a silent sentry to guard foods while they cook in the pan.

**VARI-SPEED CONTROL:** Exclusive Thermador *Vari-Speed* controls the *Speed-Matic* surface element, griddle and the rotisserie-broiler element. Thermador offers "1000 and one heat selections" with no fixed positions on the versatile *Vari-Speed* control. This control provides complete flexibility of heat selection from simmer to sizzle. Just dial any heat you need! With the *Vari-Speed* control, and all its in-between heats, you can enjoy complete ease in top-of-range cooking.

For every woman who wants the best oven for her kitchen—whether double oven or single, the positive answer is *Thermador*, today's ultimate in spacious versatility, lasting beauty, and unexcelled performance... Thermador offers you a choice of many superb oven models, in gleaming lifetime stainless steel or in lovely decorator colors in acid-resistant porcelain enamel finish. With Thermador you are assured of the highest quality and performance at its best.

Thermador Masterpiece Bilt-in Electric Single Ovens give you more usable space than any other made. Each oven interior is 18" wide x 18" high x 19 $\frac{7}{8}$ " deep, yet can be installed in a standard 24" cabinet.

The Thermador Double Oven, with all its spacious "banquet" dimensions, requires only 45 inches of wall width.

Exclusive Masterpiece air-cooled oven doors are never too hot to touch. Big Easy-Grip handles are safe to grasp whether door is open or closed.

Illustration below shows installation of a Masterpiece Single Oven with 3-spit Rotisserie. The rotisserie can be removed quickly when oven is needed for baking, roasting or broiling, and replaced just as easily for barbecuing. Porcelain enameled pan also can be used for roasting and rotisserie drip pan.

# THERMADOR MASTERPIECE

## *Bilt-in Electric* DOUBLE OVEN

with removable 3-spit rotisserie

*exclusive air-cooled doors... never too hot to your touch*

Again, first with the finest, Thermador presents today's utmost in cooking convenience in *two* massive, eye-level, *fully-automatic* electric ovens combined in a single unit. Each oven gives nearly 6500 cubic inches of usable cooking space. While broiling or barbecuing meats, or roasting a 37-pound turkey in one oven, you can bake your cakes, pies or bread in the other. The removable 3-spit rotisserie will broil up to 9 chickens at a time and barbecue many other foods. Rotisserie has two separate speed levels, one—6RPM—for smaller food dishes, shish kebab, etc.; and another,—4RPM—for large fowl and roasts.

Thermador gives you these additional Masterpiece oven features: Gleaming life-time stainless steel...air-cooled doors...cool handles..."charcoal type" smokeless broiling controlled by Vari-Speed...twin electric clocks and automatic timers...electric Teleminute Timer...Space-Miser rod-type baking element...white stippled porcelain enamel interiors...3-way indicator lights on inclined control panel...harmonizing Midnight Blue trim...automatic oven interior lights...automatic oven preheat...full-length protective hood—every new convenience for a brighter day in your kitchen, *and so easy to clean!*

*Also available in the exciting decorator colors shown on the back page.*

## THERMADOR

### Three-Spit Rotisserie

Two separate speed levels

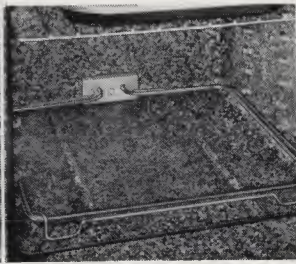

Each spit has two adjustable meat skewers and removable, ever-cool handle.

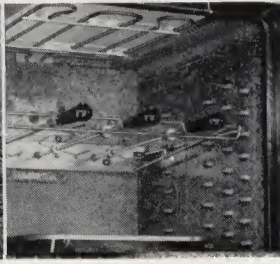

# Exclusive "Masterpiece" Oven Features

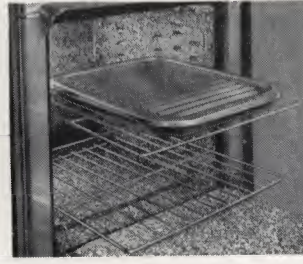

**THREE CHROME-PLATED ROTISSERIE** spits can be inserted and removed easily. Non-tilt removable frame makes loading and unloading easy. One spit is extra-heavy for large roasts, hams, or fowl; two slender spits for small birds, ribs, or shish kebab. Each spit has two adjustable meat skewers.

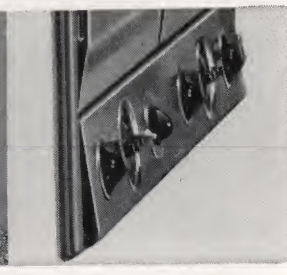

**EXCLUSIVE SPACE-MISER BAKING ELEMENT** distributes heat evenly throughout oven, assures perfect cooking results. Rod-type construction eliminates need for bulky, hard-to-clean baffles. Whole unit lifts out for each cleaning of the stippled, white, acid-resistant porcelain interior.

**INFRA-RED ROD-TYPE BROILING ELEMENT** is recessed for more usable oven space. Self-cleaning, permanently attached. Smokeless, "charcoal-type" perfect broiling with speedy, uniform heat distribution. Fabulous Vari-Speed control for the broiling element... a "thousand and one" heat selections. Full-length protective hood.

**SCIENTIFICALLY DESIGNED ALUMINUM BROILER TRAY** of all ovens assures truly smokeless broiling. Easy-to-clean ridges and slots of tray allow fats and juices to flow to pan bottom, away from direct heat. Porcelain enameled pan also can be used for roasting, or rotisserie drip pan on those models.

**BEAUTIFUL CONTROL PANEL** is inclined so you can see it easily... set dials quickly. Placed below oven where you can't scorch arms or clothing. The lovely new Midnight Blue color and polished brass trim look smart with any kitchen decoration. Electric dual-range Telemeter Timer times periods up to 1 3/4 hours.

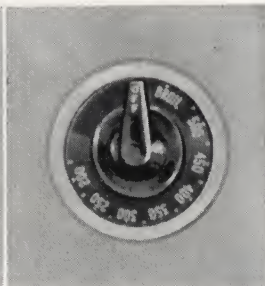

## Exclusive Air-Cooled Oven Doors... never too hot to your touch!

**EXCLUSIVE AIR-COOLED DOOR** has smartly styled ventilating slots. Door never too hot to touch. Counter-balanced; opens quietly, easily.

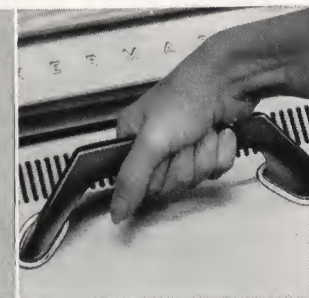

**AUTOMATIC TIMER CLOCKS** automatically control each oven. Rotisserie in oven can be controlled by timer.

**OVEN THERMOSTATS:** Single knob for each oven automatically controls either baking or broiling, and automatically pre-heats oven.

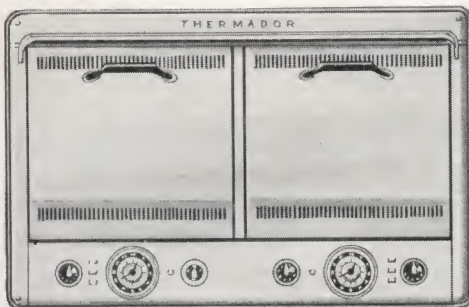

**FABULOUS VARI-SPEED SWITCH** controls infra-red broiling element in rotisserie oven, gives "a thousand and one" instant heat selections.

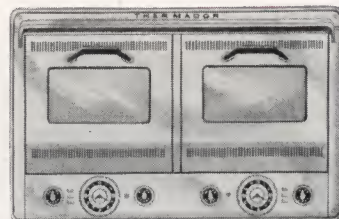

**BIG, EASY-GRIP HANDLE** of Midnight Blue plastic always remains within easy view and is safe to grasp.

**THERMADOR MASTERPIECE BILT-IN ELECTRIC DOUBLE OVEN WITH 3-SPIT ROTISSERIE IN LEFT OVEN.** Offers the largest and most versatile oven space, yet within the most compact wall area!

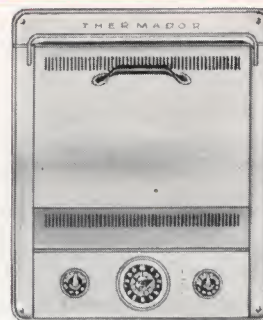

Front and Trim... 44 1/2" wide x 28-15/16" high. Cabinet Opening: 42 3/8" wide x 27 1/2" high x 24" deep. Each Oven Interior: 18" wide x 18" high x 19 1/8" deep.

MODEL TSO (shown above)  
MODEL TSOG (with window)

Porcelain Enamel Color  
MODEL TPO  
MODEL TPOG  
(with window shown above)

Front and Trim... 23-3/4" wide x 28-15/16" high.

Cabinet Opening: 21-5/8" wide x 27-1/2" high x 24" deep.

Oven Interior: 18" wide x 18" high x 19-7/8" deep.

Large full size 18-inch oven with high quality features at a budget price. Infra-red open coil broil and bake elements. Combination clock, timer and teleminute Timer. Trim frame, protective hood and control panel of polished chrome, embossed anodized aluminum inlay on control panel of porcelain enamel color models. Standard oven door.

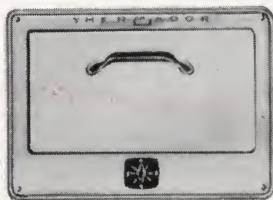

### "Easy-View" Window

The Thermador "Easy-View" Window lets you see what's cooking. Push-button outside "peek light" switch. Oven door has double-partitioned, special heat-treated glass with air-insulated compartment to insure low heat loss. No fogging or discoloration. Large size window: 14 3/8" wide x 8 3/4" high. Optional at slight extra cost on all Thermador oven models. Add suffix "G" to oven model number: e.g. WO218ARG.

## COLOR for beauty...

The Thermador Bilt-in Ovens and Cooking Tops, as specified, are available in a choice of exciting colors in lustrous acid-resistant porcelain enamel, so easy to clean, so lastingly beautiful.

The Thermador Bilt-in Refrigerator-Freezers are in matching colors of durable baked enamel.

Front and Trim... 22 3/4" wide x 16 1/4" high.  
Cabinet opening: 20 1/2" wide x 13 3/4" high x 24" deep.  
Interior: 17" wide x 9" high x 21" deep.

**BILT-IN ELECTRIC WARMING DRAWER.** Thermostatically controlled. Keeps foods at proper temperature without overcooking. Preheated, it warms rolls and pastries without using the oven. Safely warms finest china. Gives added storage space when not in use. Operates on 120 volts AC; 275 watts.

And Now...another

# Masterpiece

the stunning new **THERMADOR**  
*Bilt-in Refrigerator-Freezer in gleaming,  
easy-to-clean stainless steel.*

In every distinctive line, this handsome bilt-in refrigerator-freezer brings to a peak of luxurious dignity the quality, performance and craftsmanship embodied in all Thermador products. Refrigerator and freezer are self-contained in one unit. It occupies no more space than the conventional refrigerator, yet offers more storage area. Your new Thermador Masterpiece refrigerator-freezer is floor-installed in the wall, completely eliminating bothersome crevices and corners that normally need frequent cleaning. No extra bracing, nor risky above-floor installation required. Stainless steel or lustrous baked enamel front. You'll find it perfect for your new home or planned-for remodeling project; to enjoy all the most modern features, including self-defrosting refrigerator. Right- or left-hand door.

MODEL TSR 21... Lifetime Stainless Steel

Here's real family-sized storage 14.2 cubic feet in all, 10.2 cubic foot refrigerator, 4.0 cubic foot freezer. Freezer alone holds over 140 lbs. of frozen foods. Four refrigerated surfaces surround food in storage with continuous freezing temperature.

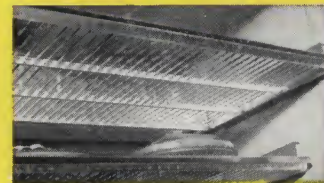

MODEL TPR21... Baked Enamel Color

Crisper drawer, like all drawers and shelves, are spacious. Positioned at just the right height to save bending—easily removed for washing. Deep-door holds extra large bottles and cartons. Butter-keeper thermostatically controlled—you dial the consistency you desire—hard, soft, spreadable.

Dairy shelf holds up to 19 quarts of milk... places most-often-used shelf at handy position. High flanged sides keep things in place.

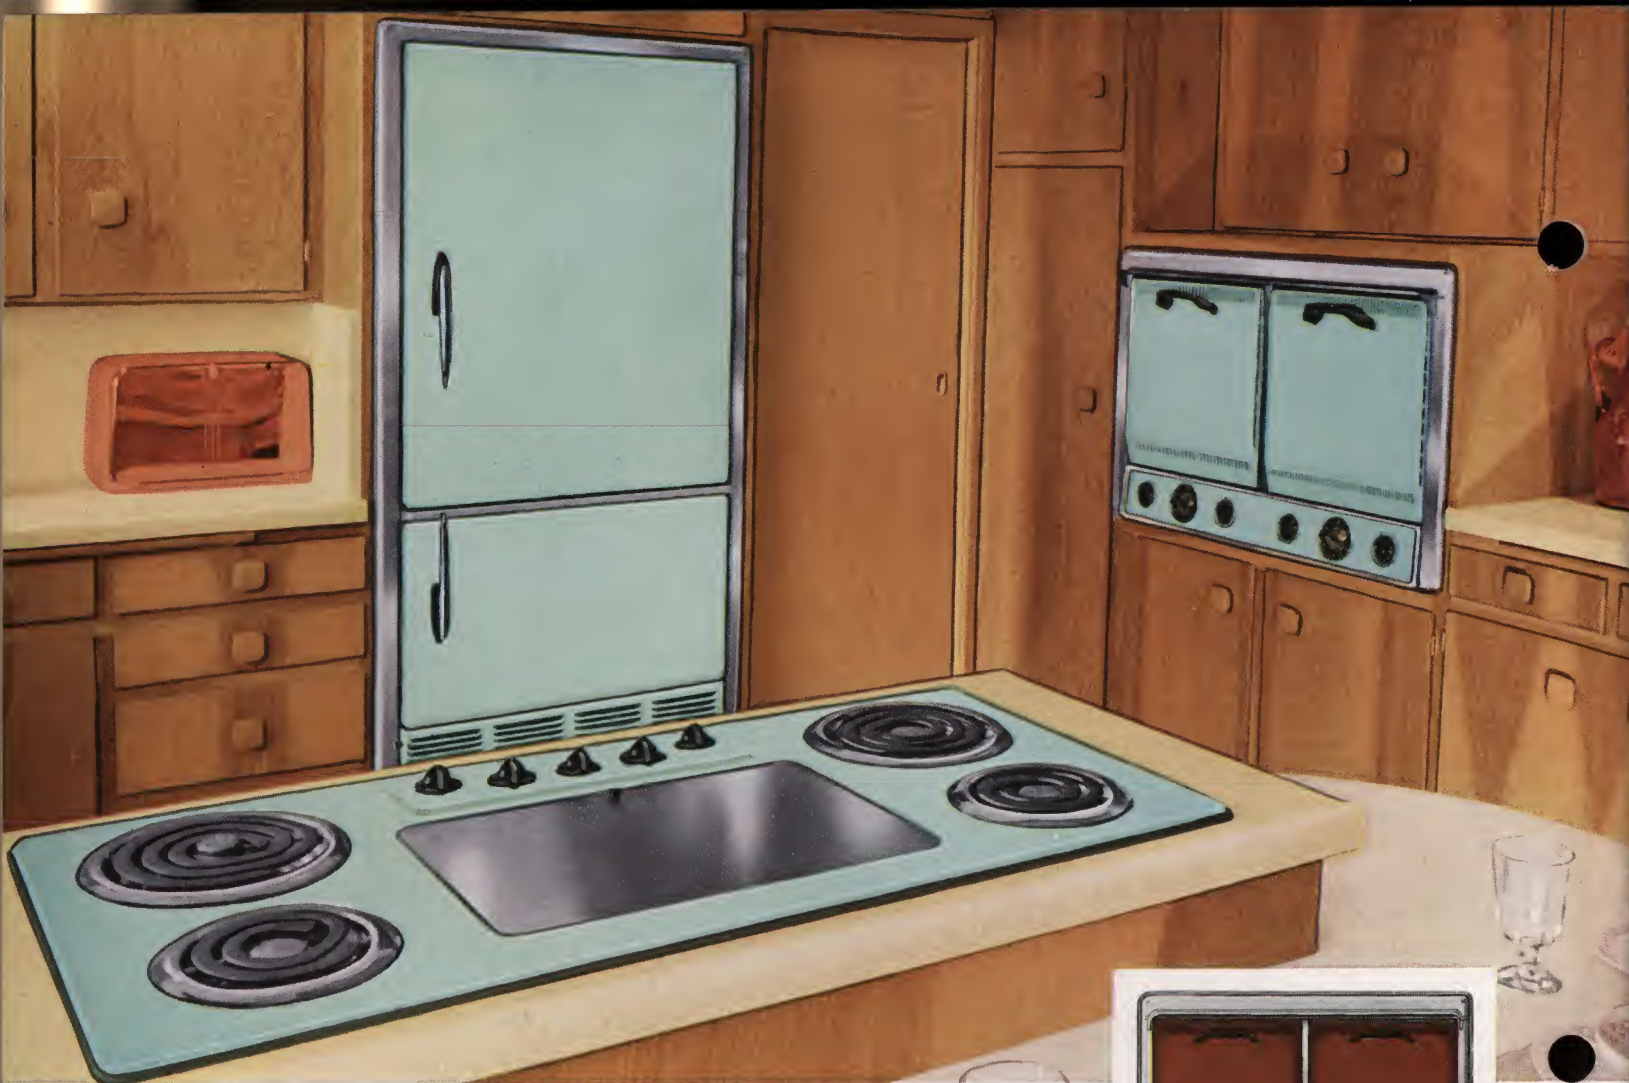

All shelves are 100% pull-out, supported by two center cross bars on each for top strength. Swing-Away shelf can be lowered to make room for melon, large fowl, bulky products.

Plus many other outstanding features.

For complete specifications, see your local Thermador dealer, distributor, or write to the factory.
